SOUNDS AROUND Town and Country

Charming app with hand-drawn animals and inspiring sounds for little explorers between 2 and 5.

SOUNDS AROUND

Town and Country

Take a walk across the farm, past the duck pond, and down to the park where the dogs are playing.

Moo with the cows, honk with the geese and frolic with the pigs in the mud!

Charmingly illustrated by Kristina Heldmann and entertainingly brought to life by singer-songwriter Erik Hibbert. He turns himself into a piglet, frog and fire engine, and even knows how a dung heap sounds!

And it's easy as ABC to switch between the original animal sounds, Erik's funny animal noises, and the short explanatory texts.
